

## KT-Dent Webinar Series

### Prof. Dr. med. dent. Gabriel Krastl

Geschäftsführender Direktor des Zentrums für Zahn-, Mund- und Kiefergesundheit  
Direktor der Poliklinik für Zahnerhaltung und Parodontologie  
Leiter Zahnunfallzentrum Universitätsklinikum Würzburg  
Pleicherwall 2, 97070 Würzburg

**30th April 2025 from 7:00-8:00 pm**

**“Endodontic Management of Traumatized Teeth”**

The pulp plays a key role in the treatment of traumatic dental injuries (TDIs) and is strongly associated with the outcome, particularly in severe cases. The endodontic management of traumatized teeth should aim to avoid root canal treatment if preservation of the pulp is a realistic scenario but at the same time should be directed towards early endodontic intervention in teeth of high risk of developing external infection-related root resorption.

Please, join for the Webinar using the Zoom link:
